

Join us at our science themed fun days this Easter! The days are run by highly trained Fun Scientists with enhanced DBS checks and first aid training and every day is jam packed with experiments, games, crafts and explosions.

Each day runs from **10 am – 3pm** at the Ascension Church Hall, Bath, BA2 1AG and we also offer a stay and play service from **9am – 10am** and **3pm – 5pm**. All days are recommended for children aged 4-10.

### **Tuesday 7<sup>th</sup> April: Easter Egg-stravaganza!**

Oh no! Our Easter eggs have been stolen again! This year we will be having a brand new forensic science Easter egg hunt with new clues and chemicals to analyse. We will also be making exploding and erupting eggs and Easter slime.

### **Wednesday 8<sup>th</sup> April: Explosive Science**

Join us as we get to grips with pressure and combustion through rocket launches, explosions and our very own potato canon! Children will learn about implosions and explosions through making their own. Plus, as always, there will be things to make and take home so the investigations can continue.

### **Thursday 9<sup>th</sup> April: Ideas and Inventions**

This day is all about creativity, design and building. We will be making catapults, electromagnets, cars, electric circuits and more. Plus, our mixture of wires, human circuits and conductive play dough means that all budding inventors will be catered to from the youngest to the oldest.

**Prices (10 am – 3pm) – 1<sup>st</sup> Child:** £18 per day. **Siblings:** £14 per day  
**Stay and Play (9am – 10am / 3pm – 5pm)** £2.50 per child per hour.

During stay and play, children have access to science toys, Lego Mindstorms, colouring, crafts and games in a safe, supervised environment.

**More information about each day as well our stay and play service can be found at [www.fun-science.org.uk](http://www.fun-science.org.uk).**
